

**SUPPORT AUSTRALIAN
REINFORCING STEEL QUALITY AND CAPABILITY**

BECOME AN ASSOCIATE MEMBER OF

Steel Reinforcement
Institute of Australia

WE ADVOCATE FOR QUALITY CERTIFIED STEEL MESH AND BAR IN AUSTRALIA

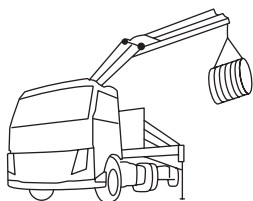

Since 1988, the Steel Reinforcement Institute of Australia (SRIA) has been supporting reinforcing steel quality and capability in Australia's building and construction industry.

As a leading not-for-profit Institute, we utilise our members' support to assist Engineers, Designers, Builders, Suppliers, Specifiers and Students interested in understanding the benefits and applications of reinforcing steel in concrete.

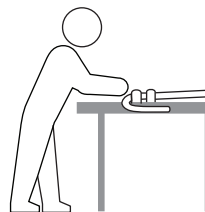

SRIA MEMBERSHIP CATEGORIES

Supplier & Processor Members

Our Supplier and Processor Members must hold current JASANZ accredited 3rd party certificates to **guarantee their bar and mesh conforms to AS/NZS 4671 and other Australian design Standards.**

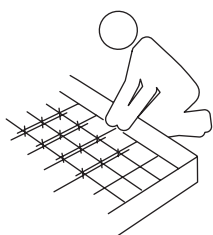

SUPPLIER – Australian steel mills

PROCESSOR – Australian mesh and bar processors

Associate Members

Our Associate Members are established Australian and International businesses who supply quality building accessories, machinery, software and steel reinforcing feed materials to our Processor Members.

MACHINERY SUPPLIER – Bar and mesh equipment manufacturers
ACCESSORIES SUPPLIER – Ancillary building product and software suppliers

Join the SRIA Network

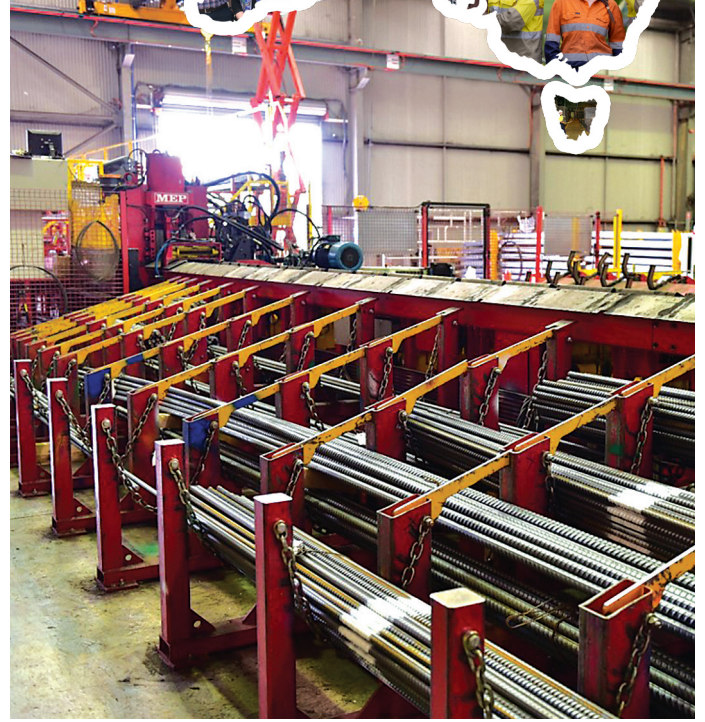

Sign up as an Associate Member of the Steel Reinforcement Institute of Australia for the low annual fee of \$1000 plus GST (AUD).

ASSOCIATE MEMBERSHIP BENEFITS

Brand awareness and recognition

- » Promote your products and services to our members.
- » Be recognised (and appreciated) by our members for supporting our industry.
- » Display your company logo, contact details, and webpage link on our website.
- » Awareness of your company in Australia through our industry leadership.

Industry information

- » Stay informed with updates about innovations, member news, seminars, publications, research programs, quality awareness, site tours and design Standards.

Network events

- » Invitation to our annual Steel Leaders Dinner.
- » Opportunity to reach our Processor Members and build relationships.

JOIN THE STEEL REINFORCEMENT LEADERS

Processor Members

Full Members > 10 years of membership

With 350 years cumulative experience and technical know-how, our Processor members supply the bulk of Australia's steel reinforcement requirements into resource, engineering construction, commercial and residential projects. This comprises cut and bent reinforcing bar, prefabricated reinforcing steel cages, and manufactured reinforcing mesh.

Our Processor members operate in all states of Australia, employing over 5,000 people, to provide a reliable and efficient just-in-time supply chain.
